

Nomura to Launch New ETF Designed to Track Performance of Nikkei Japan Entertainment Content Stock Index (Total Return) on TSE

Tokyo, May 22, 2026—Nomura Asset Management Co., Ltd., the core company within the Investment Management Division of Nomura Group, today announced that it will launch a new ETF designed to track the Nikkei Japan Entertainment Content Stock Index (Total Return).

The Nikkei Japan Entertainment Content Stock Index (Total Return) is a market capitalization-weighted index composed of major entertainment and content-related stocks listed on the Tokyo Stock Exchange (TSE). It consists of 20 stocks with the largest market capitalizations and represents the price movements of Japanese entertainment and content-related equities. The index calculation includes dividend income.

Code	Name	Index	Management fee
586A	NEXT FUNDS Nikkei Japan Entertainment Content Stock Index Exchange Traded Fund	Nikkei Japan Entertainment Content Stock Index (Total Return)	0.385% annually (0.35%, tax excluded) ¹

The ETF was today approved for listing by the TSE with a listing date of June 9, 2026. From the listing date, investors will be able to trade the ETF on the TSE through securities dealers and traders in Japan.

The minimum investment amount for the ETF is expected to be approximately 2,000 yen (for a unit of 10).

Disclosures required in Japan

ETF Investment Risks

Since the ETF invests primarily in securities and futures contracts, there is a risk that the market price of such securities or the NAV per unit of the ETF could decline and cause an investment loss due to a decline in the index, a price decline in securities comprising the index, the bankruptcy of a security issuer, or deterioration in the financial conditions of an issuer, in addition to other market factors.

Also, because some securities in the ETF are influenced by exchange rates, the NAV may fall due to fluctuations in the foreign exchange rate. An investor’s principal is therefore not guaranteed.

Furthermore, investment trusts are different from deposits and savings.

*ETF risks are not limited to the above.

Before investing in the ETF, prospective investors should carefully read the summary prospectus and base decisions on their own judgement.

ETF Investment Costs (as of May 2026)

An investor shall bear the following costs when investing in the ETF.

Trading Fees:

Trading of the ETF incurs brokerage commission fees set by a Type-1 financial instruments business provider (securities firm) that handles the transaction. These commissions are separate from the actual transaction value. (Because the commissions charged by each securities firm differ, it is not possible to specify a maximum amount.)

Management Fees:

The total management fee is obtained by adding the amount determined in (2) below to the amount

determined in (1) below. Management fees are paid from the trust assets, and therefore are charged indirectly according to the period that the ETF is held.

(1) The amount obtained by multiplying the total net assets by a rate determined by the Management Company not to exceed 1.045% annually* (0.95% exclusive of taxes).

*The maximum management fee of each ETF is indicated above. For some ETFs, the management fees are calculated based on the ETF's principal.

(2) If the securities belonging to the trust assets have been loaned, an amount no more than 55%* (50% exclusive of taxes) of the loan fees.*

*The highest loan fee of each ETF is indicated.

Other Fees:

ETF-related taxes, expenses necessary for trust administrative procedures (including various expenses necessary for safekeeping of overseas assets), interest on advances provided by the trustee, sales consignment fees incurred when securities included in the fund are traded, audit fees, other expenses (including expenses relating to listing of Beneficiary Interests and fees for the use of trademarks to subject indexes), and consumption taxes on these fees are incurred, when applicable, during the trust period. These expenses are paid from the trust assets and are charged indirectly during the period that the ETF is held. Other expenses will vary according to investment circumstances, and consequently, rates and maximum amounts cannot be specified in advance.

The total amount of the above fees and expenses will vary according to investment duration, so they cannot be specified ahead of time.

For further details, please refer to the "Fund Expense and Taxes" section of the summary prospectus.

Notes

Nomura Asset Management Co., Ltd. does not directly handle order requests for the ETF from investors. To invest in the ETF, it is necessary to open an account with a nearby Type-1 financial instruments business provider (securities firm) that handles ETFs and make a request to the broker.
