Objective and Features of the Fund

The Fund will be managed with the aim of achieving investment performance tracking an index that uses ESG[※] as a major factor in the selection of its constituents (hereinafter referred to as “ESG Index”). For more details, please refer to ***“Objective and Features of the Fund”***.

※ ESG is the collective term for Environment, Social, and Governance.

1. Objective of the Fund

The Fund aims at investment performance tracking the MSCI Japan Empowering Women (WIN) Select Index (Total Return)[※] (hereinafter referred to as the “Benchmark Index”), which means NAV volatility is to correspond with that of the Benchmark Index.

※ MSCI Japan Empowering Women (WIN) Select Index is a stock price index developed by MSCI and comprises Japanese companies which exhibit a commitment towards promoting and maintaining a high level of gender diversity. When selecting the companies, the factors which may lead to the companies’ growth such as companies’ stances concerning the capital investment are also considered.

■ Reason for selection of the Benchmark Index ■

The MSCI Japan Empowering Women (WIN) Select Index is expected to provide investors with the opportunities to invest in a group of companies, etc. that exhibit a commitment towards promoting and maintaining a high level of gender diversity among their workplace using Gender Diversity Score and Controversies Score in Index Building Process.

* For more details on the Index, please refer to ***“Index Building Process”***.

2. Features of the Fund

■ Main Subject of Investment

-Stocks listed on the Japanese financial instruments exchanges that are included and are due to be included in the Benchmark Index are to be invested in the Fund.

■ Investment Policy

- (i) The Fund is investing only in stocks that are included and are due to be included in the Benchmark Index. The goal of the Fund is to be managed so that the proportion of the number of shares of the individual stocks in the trust assets is held in a proportion that corresponds to the proportion of the number of shares calculated in terms of the component proportion of each component stock in the Benchmark Index, which is calculated using the Benchmark Index’s calculation method, and the Fund aims at investment performance tracking the Benchmark Index.

■Stocks incorporated into the Fund■

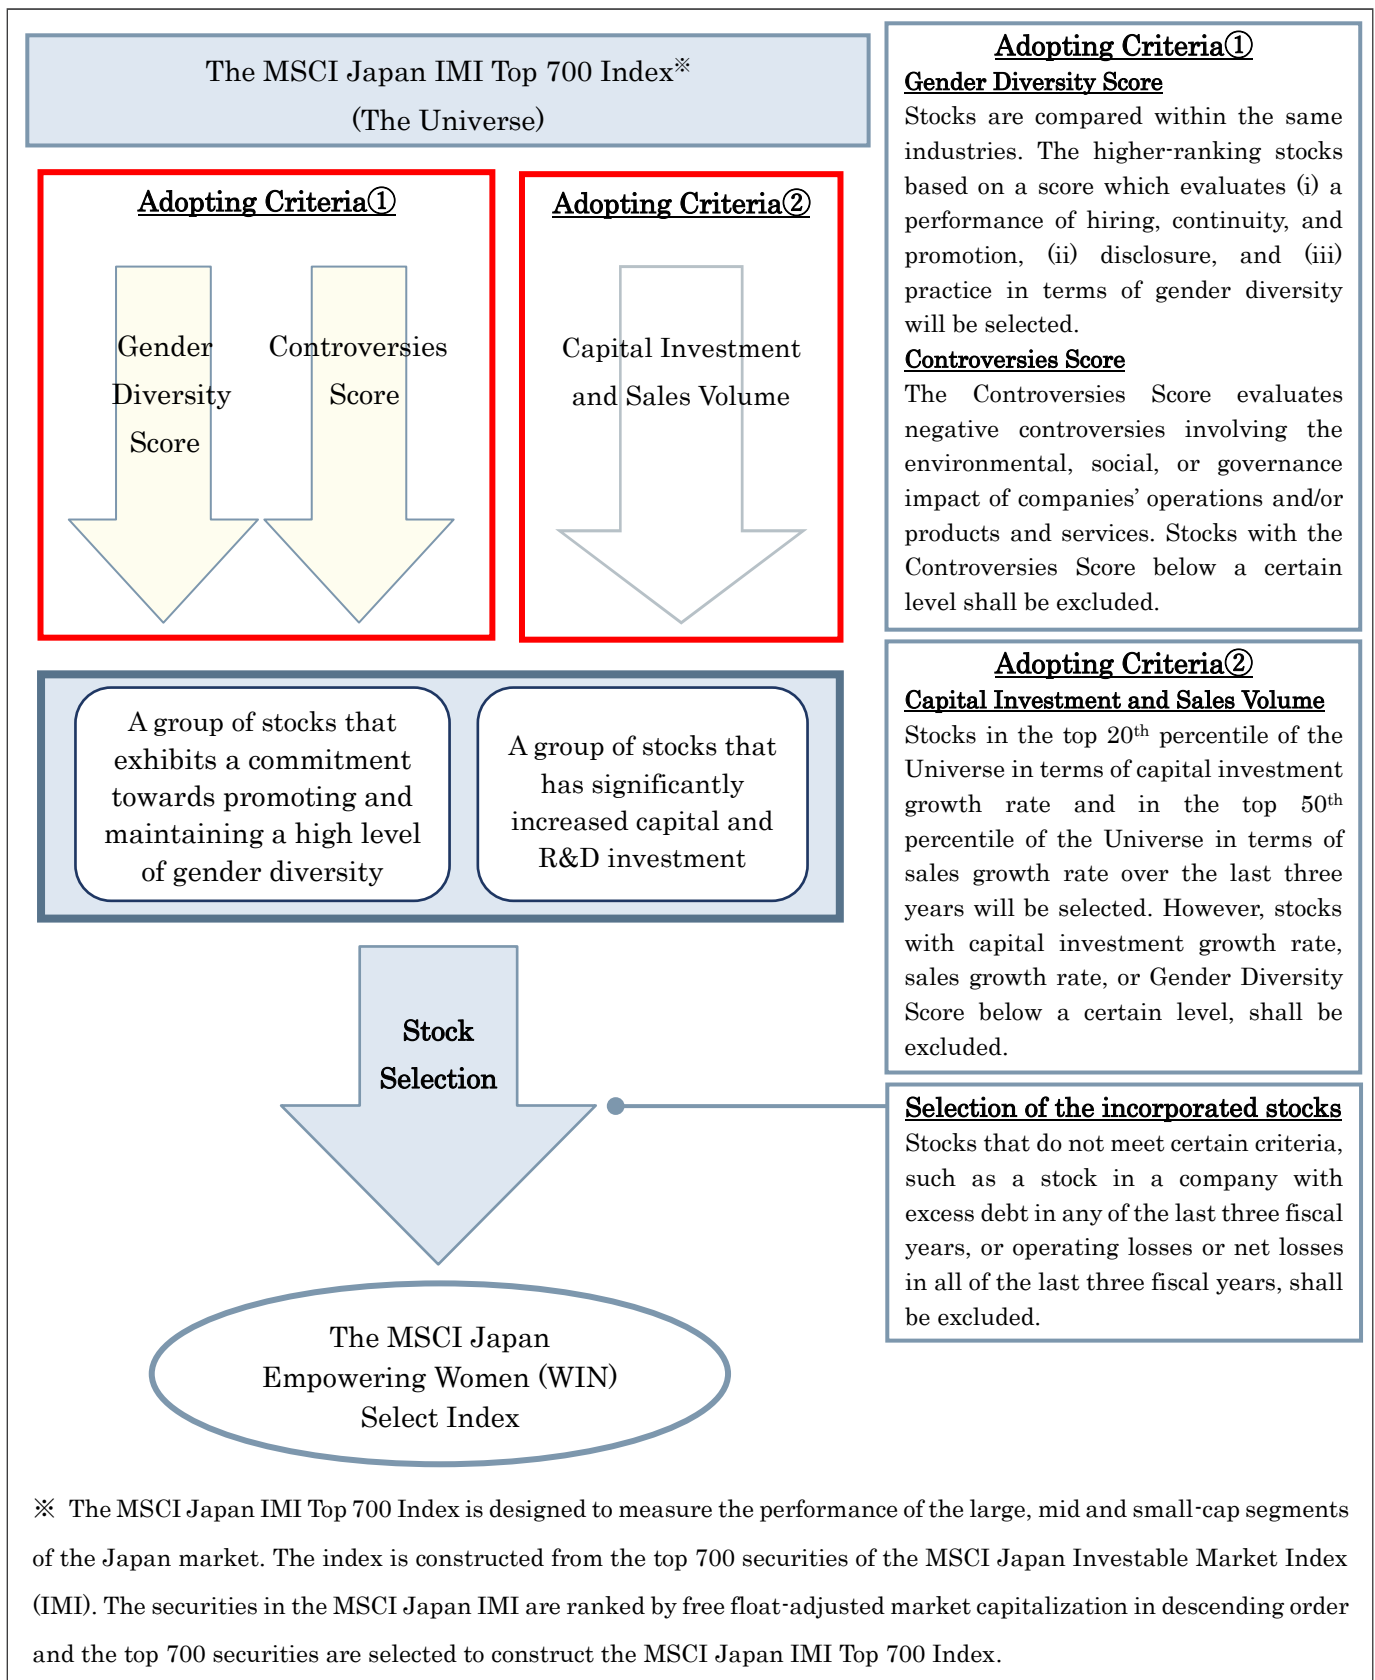

The Fund invests only in stocks that are included and are due to be included in the Benchmark Index, and all the stocks comprising the Benchmark Index are selected based on its methodology with particular emphasis on their ESG characteristics.

* Please refer to “***Investment Risks***” for the restrictive factors and risks involved in aiming to achieve investment performance tracking ESG Index.

■Stewardship Policy■

Through stewardship activities, including proxy voting and constructive engagement, Nomura Asset Management Co., Ltd. encourages the management of investee companies to manage ESG risks, pursue business opportunities, and disclose information in accordance with relevant international initiatives.

■ Index Building Process ■

(Source) Prepared by Nomura Asset Management Co., Ltd. based on the materials from MSCI.

* The above information is current as of January 15, 2025, and is subject to change.

(ii) The Management Company may issue investment instructions to adjust the component of the trust assets to meet policy (i) above:

- If the calculation method of the Benchmark Index is changed or announced to be changed;
- If adjustments to the component proportion of each component stock in the Benchmark Index are made or announced to be made due to causes such as interchanges in the selected stocks in the Benchmark Index, capital transfers of any of the selected stocks in the Benchmark Index, or other similar events;
- If an addition or exchange of this trust is made; or
- In other cases, if necessary to ensure linkage to the Benchmark Index.

(iii) Stocks that are indicated to be invested are stocks which are listed (or due to be listed) on the financial instruments exchanges or registered (or due to be registered) in the Registry of Over-the-Counter Traded Securities and which are issued by the issuing corporations whose issued stocks are included and are due to be included in the Benchmark Index. However, this indication is not necessary for stocks that are acquired through allotments to stockholders. The stocks which are excluded from the Benchmark Index shall be sold promptly, taking market conditions into consideration, though the stocks may in certain cases not be sold promptly because of the liquidity, etc., of the stocks.

(iv) Notwithstanding provision (i) above, to keep investment performance tracking the Benchmark Index, the Fund may make complementary purchases of stock index futures connected with the Benchmark Index or other Japanese stock indexes in order to realize the same profits and losses equivalent to the case which the Fund invested only in stocks that are included and are due to be included in the Benchmark Index.

Management described above may not be achieved depending on funding trends, market trends, etc.

- Copyright, etc., of the MSCI Japan Empowering Women (WIN) Select Index (Total Return)
“MSCI Japan Empowering Women (WIN) Select Index (Total Return)” is the index developed by MSCI. Copyrights, intellectual property rights, and all other rights to the Index belong to MSCI. In addition, MSCI also retains the rights to change the contents and to suspend the disclosure of the Index.

■ Investment Restrictions

Investment ratio of stocks	There is no restriction on the investment ratio of stocks.
Investment ratio of assets denominated in foreign currencies	The investment ratio of assets denominated in foreign currencies shall be less than or equal to 10% of the total net asset value of the trust assets in the Fund.

Use of derivatives	Use of derivatives is allowed (i) until the Fund begins investing in stocks in accordance with the investment policy or (ii) with the aim of keeping investment performance tracking the Benchmark Index. In such cases, the Fund may make the complementary purchases of stock index futures connected with the Benchmark Index or other Japanese stock indexes. Furthermore, the Fund uses the derivatives to realize the same profits and losses equivalent to those that arise as a result of holding assets that are subjects of the investment.
--------------------	---

■ Distribution Policy

-Dividends are due on the 20th of April and October of each year.

-As a general rule, the full amount of dividends and other income arising from the trust assets are distributed after deduction of expenses. However, the amount of dividends that is payable may in some circumstances amount to zero. Even if any profits are realized from the sale and purchase of individual stocks, no dividends shall be paid.

* There is no suggestion or guarantee regarding the payment or the amount of future dividends.

Investment Risks

1. Factors that contribute to NAV volatility

The NAV of the Fund is subject to fluctuations in the prices of the securities, etc., in which the Fund invests. ~~All profits and losses arising from fund management are borne by the investors. Any principal invested in the Fund by investors is therefore not guaranteed. Investors may incur a loss and the value of their investment principal may fall below par as the result of a decline in the NAV. The investment trust differs from a savings deposit.~~

Stock Price Fluctuation Risk	NAV of the Fund may be influenced by stock price fluctuations since the Fund invests in stocks.
Risk Related to ESG Investments	The NAV fluctuations of the Fund may vary widely from the fluctuations of the entire stock market since the Fund aims at investment performance tracking the ESG Index.

* The factors that contribute to fluctuations in the NAV are not limited to those mentioned above.

<<Primary Factors for Discrepancies between the Benchmark Index and NAV>>

The Fund intends to achieve investment performance where the NAV corresponds to the fluctuations of the Benchmark Index; however, in managing the investment assets, we cannot guarantee that movements will be identical to those of the Benchmark Index primarily for the following reasons:

- (i) We cannot make individual stocks' incorporated ratio of the Fund completely the same as the component proportion of component stocks in the Benchmark Index.
- (ii) The Fund may incur market impact or bear costs such as brokerage commission, etc., by the trading of individual stocks, when portfolio adjustments are made due to changes of the component stocks in the Benchmark Index, capital transfers of any individual stocks in the Benchmark Index, a partial exchange, or any other causes.
- (iii) When cash remains as part of the trust assets as a result of an additional issue partly made by cash, dividends obtained from individual incorporated stocks, or rights handling, etc.
- (iv) There may be a price spread between the sale price and the appraised value of the object stocks.
- (v) When futures transactions are made, there may be a disparity between the prices of the forwards and the Benchmark Index.
- (vi) The Fund bears certain costs, such as trust fees.

* The factors that contribute to the discrepancy between the Benchmark Index and NAV are not limited to those listed above.

2. Additional Considerations

The provisions stipulated in Article 37-6 of the Financial Instruments and Exchange Act (so-called "cooling off") are not applicable to the subscription to the Fund.

- In the event that a large number of redemptions occur and it becomes necessary to raise funds for the large number of redemptions within a short period of time or that a sudden change in the market environment in the primary trading market occurs etc., there is a risk that the Fund may not be able to trade at an expected price (based on prevailing market prices) or the trading volume may be limited due to a temporary decline in the liquidity of the assets incorporated in the Fund. As a result of these risks, there is the possibility that the net asset value will be negatively affected, that acceptance of applications for redemption will be cancelled, or that the payment of redemption proceeds will be delayed.
- Management based upon the investment policy may not be achieved depending on funding trends, market trends, etc., or unexpected circumstances.
- The interest/redemption payment from the issuers of the securities which are incorporated into the Fund may be delayed.
- Transaction pertaining to the Fund, such as an investment in securities and contracts related to such fund, may default because of bankruptcy, or other similar event, occurring to a counterparty.
- NAV of the Fund and the Benchmark Index may differ because of costs and other factors. It is not guaranteed that the Fund's investment performance will track or exceed the Benchmark Index.
- The market price of the Fund is based upon supply and demand, as calculated through competitive buying and selling on the exchange. Therefore, market price may differ from the NAV itself.
- Please be aware that the Fund will be delisted, and the trust will be terminated if the number of units of beneficial interests falls below 1,000,000 for 20 successive business days.

3. Risk Management System

The Management Company examines the Fund performance and oversees management risks by having established a committee to take charge of these matters.

- Examination of the Fund performance
The committee reports and deliberates on the results of periodic examinations (analysis/evaluation) of the investment trust's trust asset performance results.
- Administration of management risk
The committee identifies and manages management risk and, based on its findings, provides guidance to the appropriate divisional management and any other relevant sections regarding rectification measures for appropriate administration.

※Administration of Liquidity Risk

The committee establishes rules for the administration of liquidity risk, monitors the liquidity risk of assets incorporated in the Fund, and formulates/verifies emergency measures. The committee oversees the appropriate implementation of liquidity risk

administration and oversees the liquidity risk administration system.

4. Risk Quantitative Comparison (from the end of December 2019 to the end of November 2024, per month)

<The Fund's annual return and the change of dividend re-investment net asset value >

■ The Fund's annual return (Right Axis)

— Dividend re-investment net asset value (Left Axis)

* The dividend re-investment net asset value is calculated by deeming that the dividend before income taxes is re-invested. The dividend re-investment net asset value is set by indexing the net asset value as of the end of December 2019 as 10,000.

* The annual return displays the return in a single year at the end of each month for the five years from December 2019 to November 2024.

■ Tax Treatment

- Tax Treatment is applied at the times listed below.
- The following chart represents tax rates on individual investors at the time of tax withholding.
The tax rate may differ according to the taxation method, etc.

Time	Items	Tax
Receipt of distribution	Income tax, Special reconstruction income tax and local tax	Taxed as dividend income 20.315% of income distributions
Sales, exchanges and termination	Income tax, special reconstruction income tax and local tax	Taxed as capital gains 20.315% of the profit on sales, exchanges and termination

* The foregoing descriptions are as of the end of November 2024. Therefore, in the event that tax laws are revised, the tax rates may change.

* If you choose the Japanese version of the Individual Savings Account (known as “NISA”):

“NISA” is the (Nippon) Individual Savings Account, a tax exemption structure pertaining to a listed stock or a publicly offered stock investment trust etc. If you choose to use the NISA structure, income gains and capital gains from newly purchased ETFs etc., for investments of up to a specified amount each year, will be tax exempt for an indefinite term. In order to be eligible for NISA, certain conditions must be met, such as requirements that the NISA account be opened at an eligible distributing company, and financial products that fulfill requirements under tax laws be purchased at the company. Investors should make sure whether or not tax exemptions can be available as this may depend on the method of receiving dividends.

Please confirm this with the distributing company for further details.

* In the case that foreign tax credit is applied due to the investment assets denominated in foreign currencies, the amount of the tax at the time of receipt of the distribution may differ from the amount mentioned above.

* The aforementioned descriptions do not apply to Japanese corporations.

* We recommend that investors consult a tax or similar specialist for details of tax treatment.
