Objective and Features of the Fund

The Fund will be managed with the aim of achieving investment performance tracking an index that uses ESG^{**} as a major factor in the selection of its constituents (hereinafter referred to as "ESG Index"). For more details, please refer to *"Objective and Features of the Fund"*. ** ESG is the collective term for Environment, Social, and Governance.

1. Objective of the Fund

The Fund aims at investment performance tracking the MSCI Global Climate 500 Japan Selection Index (Total Return)^{**}(hereinafter referred to as the "Benchmark Index"), which means NAV volatility is to correspond with that of the Benchmark Index.

*MSCI Global Climate 500 Japan Selection Index only includes constituents of the MSCI Japan Index, which are part of MSCI ACWI Select Climate 500 Index. The MSCI ACWI Select Climate 500 Index is designed to support investors seeking to reduce their exposure to the greenhouse gas emissions and increase exposure to companies with their emission reduction targets approved by Science Based Targets initiative (SBTi).

■ Reason for selection of the Benchmark Index ■

The MSCI Global Climate 500 Japan Selection Index is expected to provide investors with the opportunities to invest in a group of companies with commitment to reduction of the greenhouse gas emissions, using negative screening and greenhouse gas emission intensity reduction target in Index Building Process.

* For more details on the Index, please refer to "Index Building Process".

- 2. Features of the Fund
 - Main Subject of Investment

-Stocks and Real Estate Investment Trust Securities (REIT) × listed in the Japanese financial instruments exchanges that are included and are due to be included in the Benchmark Index.

* The REIT is limited to real estate investment trust securities (as defined in the rules of The Investment Trusts Association, Japan) listed or registered on the Japanese financial instruments exchanges or any other market equivalent thereto.

Investment Policy

(i) The Fund is investing only in stocks and REITs that are included and are due to be included in the Benchmark Index. The goal of the Fund is to be managed so that the proportion of the number of shares of the individual stocks and REITs in the trust assets is held in a proportion that corresponds to the proportion of the number of shares of each component stock and REIT in the Benchmark Index, and such proportion is calculated in terms of the component proportion of each component stock and REIT in the Benchmark Index, which is calculated using the Benchmark Index's calculation method, and the Fund aims at investment performance tracking the Benchmark Index.

■ Stocks incorporated into the Fund ■

The Fund invests only in stocks that are included and are due to be included in the Benchmark Index, and all the stocks comprising the Benchmark Index are selected based on its methodology with particular emphasis on their ESG characteristics.

* Please refer to *"Investment Risks"* for the restrictive factors and risks involved in aiming to achieve investment performance tracking ESG Index.

■Stewardship Policy■

Through stewardship activities, including proxy voting and constructive engagement, Nomura Asset Management Co., Ltd. encourages the management of investee companies to manage ESG risks, pursue business opportunities, and disclose information in accordance with relevant international initiatives.

(ii) The Management Company may issue investment instructions to adjust the components of the trust asset to meet policy (i) above:

-If the calculation method of the Benchmark Index is changed or announced to be changed; -If adjustments to the component proportion of individual stocks or REITs in the Benchmark Index are made or announced to be made due to causes such as interchanges of the selected stocks or REITs, capital transfers of such selected stocks or REITs in the Benchmark Index, or other similar events;

-If an addition or exchange of this trust is made; or

-In other cases, if necessary to ensure linkage to the Benchmark Index.

(iii) Stocks that are indicated to be invested are stocks which are listed (or due to be listed) on the financial instruments exchanges or registered (or due to be registered) in the Registry of Over-the-Counter Traded Securities and which are issued by the issuing corporations whose issued stocks are included and are due to be included in the Benchmark Index. However, this indication is not necessary for stocks that are acquired through allotments to stockholders. Additionally, REITs that are indicated to be invested are REITs which are listed (or due to be listed) on the financial instruments exchanges or registered (or due to be registered) on the Registry of Over-the-Counter Traded Securities and are issued by investment corporations of the REITs, whose issued REITs are included and are due to be included in the Benchmark Index. However, this indication is not necessary for REITs acquired through allotments to investors. The stocks and REITs which are excluded from the Benchmark Index shall be sold promptly, taking market conditions into consideration, though the stocks and REITs may in certain cases not be sold promptly because of the liquidity, etc., of the stocks and REITs.

(iv) Notwithstanding provision (i) above, the Fund may make the complementary purchases of stock index futures connected with the Benchmark Index or other Japanese stock indexes to realize the same profits and losses that would be achieved in the case where the Fund is investing only in stocks and REITs that are included or are due to be included in the Benchmark Index with the aim of keeping investment performance tracking the Benchmark Index.

Management described above may not be achieved depending on funding trends, market trends, etc.

	Japanese stock indexes. Furthermore, the Fund uses
	the derivatives to realize the same profits and losses
	equivalent to those that arise as a result of holding
	assets that are subjects of the investment.

■ Investment Restrictions

Distribution Policy

-Dividends are distributed on the $8^{\mathrm{th}\%}$ of January and July of each year.

*The first income distribution is on July 8, 2025.

-As a general rule, the full amount of dividends and other income arising from the trust assets are distributed after deduction of expenses. However, the amount of dividends that are payable may in some circumstances amount to zero. Even if any profits are realized from the sale and purchase of individual stocks and REITs, no dividends shall be paid.

* There is no suggestion or guarantee regarding the payment or the amount of future dividends.

Investment Risks

1. Factors that contribute to NAV volatility

The NAV of the Fund is subject to fluctuations in the prices of the securities, etc., in which the Fund invests. All profits and losses arising from fund management are borne by the investors.

Any principal invested in the Fund by investors is therefore not guaranteed. Investors may incur a loss and the value of their investment principal may fall below par as the result of a decline in the NAV. The investment trust differs from a savings deposit.

Stock Price Fluctuation Risk	NAV of the Fund may be influenced by stock price fluctuations		
	since the Fund invests in stocks.		
REIT Price Fluctuation Risk	REIT prices can fluctuate due to various factors, including the		
	condition of the real estate owned by investment corporations,		
	fluctuation in the market interest rates, trends in the real		
	estate market and the stock market, etc. NAV of the Fund		
	may be influenced by those factors since the Fund invests in		
	REIT securities.		
Risk Related to ESG	The NAV fluctuations of the Fund may vary widely from the		
Investments	fluctuations of the entire stock market since the Fund aims at		
	investment performance tracking the ESG Index.		

* The factors that contribute to fluctuations in the NAV are not limited to those mentioned above.

<< Primary Factors for Discrepancies between the Benchmark Index and NAV>>

The Fund intends to achieve investment performance where the NAV volatility corresponds to the fluctuations of the Benchmark Index; however, in managing the investment assets, we cannot guarantee that movements will be identical to those of the Benchmark Index primarily for the following reasons:

(i) We cannot make the incorporated ratio of individual stocks and REITs in the Fund completely identical to the component proportion of component stocks and REITs in the Benchmark Index.

(ii) The Fund may incur market impact or bear costs such as brokerage commission, etc., by the trading of individual stocks and REITs, when portfolio adjustments are made due to changes of the component stocks and REITs in the Benchmark Index, capital transfers of any individual stocks and REITs in the Benchmark Index, a partial exchange, or any other causes.

(iii) When cash remains as part of the trust assets as a result of an additional issue partly made by cash, dividends or distributions obtained from individual incorporated stocks and REITs, or rights handling, etc.

(iv) There may be a price spread between the sale price and the appraised value of the object stocks and REITs.

(v) When futures transactions are made, there may be a disparity between the prices of the forwards and the Benchmark Index.

(vi) The Fund bears certain costs, such as trust fees.

* The factors that contribute to the discrepancy between the Benchmark Index and NAV are not limited to those listed above.

2. Additional Considerations

The provisions stipulated in Article 37-6 of the Financial Instruments and Exchange Act (so-called "cooling off") are not applicable to subscription to the Fund.

- In the event that a large number of redemptions occur and it becomes necessary to raise funds for the large number of redemptions within a short period of time or that a sudden change in the market environment in the primary trading market occurs etc., there is a risk that the Fund may not be able to trade at an expected price (based on prevailing market prices) or the trading volume may be limited due to a temporary decline in the liquidity of the assets incorporated in the Fund. As a result of these risks, there is the possibility that the net asset value will be negatively affected, that acceptance of applications for redemption will be cancelled, or that the payment of redemption proceeds will be delayed.
- Management based upon the investment policy may not be achieved depending on funding trends, market trends, etc., or unexpected circumstances.
- The interest/redemption payment from the issuers of the securities which are incorporated into the Fund may be delayed.
- Transactions pertaining to the Fund, such as an investment in securities and contracts related to such fund, may default because of bankruptcy, or other similar event, occurring to a counterparty.
- NAV of the Fund and the Benchmark Index may differ because of costs and other factors. It is not guaranteed that the Fund's investment performance will track or exceed the Benchmark Index.
- A REIT invested in by the Fund may have low fluidity, and investments in such REITs may be more restricted than investments in high fluidity stocks, etc.
- When the laws (tax systems, accounting systems, etc.) relating to the REIT and the regulations of real estate change, it will affect the price and dividends of the REIT.
- The market price of the Fund is based upon supply and demand, as calculated through competitive buying and selling on the exchange. Therefore, market price may differ from the NAV itself.
- Please be aware that the Fund will be delisted, and the trust will be terminated if the number of units of beneficial interests falls below 500,000 for 20 successive business days after three years have passed from the initial inception date.

3. Risk Management System

The Management Company examines Fund performance and oversees management risks by having established a committee to take charge of these matters.

- Examination of the Fund performance The committee reports and deliberates on the results of periodic examinations (analysis/ evaluation) of the investment trust's trust asset performance results.
- Administration of management risk
 The committee identifies and manages management risk and, based on its findings, provides guidance to the appropriate divisional management and any other relevant sections regarding rectification measures for appropriate administration.

 $\circle{Administration of Liquidity Risk}$

The committee establishes rules for the administration of liquidity risk, monitors the liquidity risk of assets incorporated in the Fund, and formulates/verifies emergency measures. The committee oversees the appropriate implementation of liquidity risk administration and oversees the liquidity risk administration system.

*The foregoing descriptions are as of the end of September 2024. Therefore, in the event that tax laws are revised, the tax rates may change.

*If you choose the Japanese version of the Individual Savings Account (known as "NISA"):

"NISA" is the (Nippon) Individual Savings Account, a tax exemption structure pertaining to a listed stock or a publicly offered stock investment trust etc. If you choose to use the NISA structure, income gains and capital gains from newly purchased ETFs etc., for investments of up to a specified amount each year, will be tax exempt for an indefinite term. In order to be eligible for NISA, certain conditions must be met, such as requirements that the NISA account be opened at an eligible distributing company, and financial products that fulfill requirements under tax laws be purchased at the company. Investors should make sure whether or not tax exemptions can be available as this may depend on the method of receiving dividends.

Please confirm this with the distributing company for further details.

*In the case that foreign tax credit is applied due to the investment assets denominated in foreign currencies, the amount of the tax at the time of receipt of the distribution may differ from the amount mentioned above.

*The aforementioned descriptions do not apply to Japanese corporations.

*We recommend that investors consult a tax or similar specialist for details of tax treatment.
